

PUBLIC LEADER

MASTON RE-PUBLICAN.

FOURTH YEAR.

MAYSVILLE, KY., SATURDAY, MARCH 16, 1895.

ONE CENT.

Stock Circulation
LARGEST IN THE CITY.

Exclusively Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements must be paid for, no matter in what part of the paper they appear.

The Continued Calls

upon this *Leader* for free notices have become so burdensome that we are forced to publish the following statement:

For Notices of Suppliers:

carriages, fairs, or other public entertainments where a fair is desired, and for ordinary notices, resolutions of respect, etc., this *Leader* will charge FIVE CENTS A LINE, and hereafter this will be the inevitable rule. This, however.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for *Business Leads* in this *Leader* is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local insertion in the paper. I'll tell you when to take it out, he says to the bookkeeper. But he forgets all about it. The notice runs for two months—30 times—the bill is \$15.00. When he finds it out, there is a "kick" and a controversy, followed probably by an icy feeling. Now, to obviate this trouble, we "will forbid" notices will be accepted hereafter. Let us have a definite agreement at the outset and the termination will be pleasant all around.

For all matter for publication must be handed in before 9 o'clock in the morning of each day.

HERE THERE

John A. Fisher, ex-Maysvillian, writes from Florence, Kans., that following the adjournment of Congress he sold a house and five lots—the first sale in Florence during this Administration. He expects to change his location.

"Wild" Hall, the smooth article from Martin county, did not get "two cases of wine," or anything else, from George W. Rogers & Co. of this city, the statement of a down town paper to the contrary notwithstanding. Thus, again, "it's not so if it's in the Blunderer."

There are so many cock and bull stories which have their origin in Robertson county, that it is risky to mention anything as happening there, lest it be untrue. The only safe way appears to be to mark Robertson county happenings off the newspaper map—or kill about 120,000 700 unprincipled liars.

WOMAN SUFFRAGE IN BILLYVILLE.

Had a woman suffrage meeting at Billyville on the 15th.

A HUSTLING CONSTABLE.
In W. B. Dueson, Who Is Attorney on the Lookout.

When it comes to a hustler from Hustleville, Constable Billy Dawson is right up near the bandwagon.

Billy aroused "Squire Bramel at 10 o'clock Thursday night and had attachment papers issued, and amid snow and sleet he went to Washington, served the attachment and was back at 11 o'clock.

A second time he called on the genial Squire, made an affidavit, and at 11:30 o'clock rearranged Jack Kelley, who had just been released from jail on a writ of habeas corpus.

At midnight he awoke the Squire from his slumber, asked for more attachment papers, went to the country and served the papers at 1 a. m. Friday morning.

Arrived home at 2 o'clock, took the 5 o'clock train and arrived in Frankfort at noon, presented his bill for \$111.12, the amount expended in getting a hog thief from Ohio, to the Governor, sang his Excellency a song for 2 hours, had the bill allowed, and was home in time for supper last night.

"WID" HALL GUILTY.
IT TOOK THE JURY ABOUT FIVE MINUTES TO SETTLE HIS HASH FOR HIM.

In the Federal Court at Louisville in the "Wid" Hall case did not require five minutes in which to agree upon a verdict that convicted the defendant upon every count in the indictment.

Attorneys for the defense and defendants Dameron, Cooper, Preston and others showed as much distress in expression as did Hall when they realized the extent and suddenness of it all.

During Thursday morning testimony was introduced for the purpose of showing that Charles Preston of Paintsville, a cousin of the Preston indicted with Hall, had robbed Hall of over \$1,400 on the steamboat Slip Bays, while Hall was going to settle with a number of his creditors, but the proof was not strong enough to impress the jury.

The testimony was concluded before the noon adjournment, and Attorney W. S. Harkins of Prestonsburg spoke for the defense.

District Attorney Smith closed his strong review of the evidence about 3 o'clock in the afternoon, and Judge Barr was brief in his charge to the jury.

The jurors returned so soon that it was evident only one ballot had been found necessary to declare the defendant guilty as charged.

Besides the fines, the several counts aggregate forty-four months of confinement, but other indictments still hang over Hall, and further convictions may increase the sentence a number of years.

He was convicted of using the mails to defraud, and is indicted with others for participating in a conspiracy to so defraud.

The trial of Wayne Dameron of Catlettsburg is now in progress.

Considerable local interest attaches to these cases, for the reason that many Maysville merchants received "orders" from Hall, and that the investigation was started by a "former administration" of the Postoffice here.

JUDGE'S FAMOUS CARTOONIST

Bernard Gillam Recommends Paine's Celery Compound For Exhaustion.

The Buffalo News, in a recent article, remarks upon the fact that "Bernard Gillam, the cartoonist of Judge, is one of the few living men whose cartoons have ever changed a vote in the U. S. Senate."

Bernard Gillam is a young man, but 35. He received his art education in England. He is today the foremost cartoonist of America.

In 1880 he came to Harper's Weekly as the colleague of the immortal Nast. His work afterward for Frank Leslie's and Puck well fitted him for bringing Judge to its present success. In 1890 Mr. Gillam went into partnership with W. J. Arkell and bought Judge. The full page colored cartoons, Mr. Gillam's special province on Judge, equal the remarkable efforts of the great Krieger, in Judge's older rival.

There is probably no form of brain work that is so exhausting, so exacting and so intense as the work of the great artist on the large comic papers. To turn out brilliant ideas with the regularity of machinery and yet keep their work up to the high standard set by their splendid reputation, makes fearful demands upon their nervous vitality. Mr. Gillam knows what severe work means.

The nervous strain of his responsible position has at times brought him near to prostration and the giving up of his work.

He says in a letter dated New York, November 13th, 1894:

"No tonic that I have taken has done me so much good as Paine's Celery Compound. When I am run down or exhausted after particularly exacting work on cartoons and in other artistic occupations, I have found a dose of the compound exceedingly beneficial as a restorative for the nerves."

The racing speed of the marvelous new processes for swiftly carrying out men's ideas is taxing to their utmost the nervous systems of countless men and women. A cry of protest is going up all over the country from medical men against the suicidal waste of nerve force. Preachers, editors, lawyers, even doctors themselves, from their daily round of hard, anxious work—every brain worker, in fact, who labors draws heavily upon his nervous vitality, must take alarm at the first sign of brain-tire, pressure, fullness or tension in the head, or nervous fatigue.

In every city in the United States physicians every day are not only prescribing, but themselves using, Paine's Celery Compound for weakness and nervous debility, for curing the effect of poor and unhealthy food, disorders of liver, kidneys, stomach, heart and the nervous system.

There are nearly 2,500 patients in the three lunatic asylums in Kentucky. These institutions are located at Lake land, Lexington and Hopkinsville.

The engagement is announced of Mr. Martin Hardin of Danville, son of General P. W. Hardin, to Miss Julia Stevenson, daughter of Vice-President Stevenson.

The "Trolley System."
The roaring fable comedy will be served red-hot to the patrons of Washington Opera-house next Wednesday evening. It is called "The Trolley System." The whole play is made up of horrible mishaps that befall Timothy Tubbs.

The advertising columns of THE LEADER speak for themselves. They show that people who know how to advertise know also when to advertise.

An effective remedy must first enter the blood to cure rheumatism. Local treatment for a constitutional disorder will do no good. Rheumatism, gout, blood-poisoning, scrofula, etc., are diseases lodged in the blood.

Just why Paine's Celery Compound cures, while other remedies fail, is because all its ingredients effectually aid the system to rid itself of any poisonous humors in the blood.

Hundreds of cases have within this year been reported directly from persons, between the ages of 45 and 65, suffering from acute Bright's disease, who have been permanently cured by Paine's Celery Compound. It stops the gradual structural changes in the kidneys, restores their vigor and removes such alarming symptoms as the gradual loss of strength, pallor of the face, shortness of breath, pain in the back and sides, dizziness and a puffiness condition of the skin.

As a spring medicine it is absolutely without a rival.

Every over-worked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's Celery Compound. It is food for the brain and nerves. It sends new healthy blood through the arteries. It makes people well.
